AUTOMAZIONE / ROBOTICA

La nostra società SINCOSALD Srl vanta un reparto automazione in grado di dare soluzioni a qualsiasi esigenza nel campo della saldatura con un'esperienza di oltre 30 anni nel settore automazione e robotica

Competenze di settore:

Analisi e progettazione di piattaforme di automazione per il controllo degli impianti studiate su misura per le esigenze del cliente.

Analisi per la realizzazione di quadri elettrici per automazione

Sviluppo software per sistemi industriali basati su controllori modulari PLC/CNC

Studio e realizzazione di architetture di supervisione per il controllo basate sulle moderne tecnologie

Qualificata divisione di assistenza tecnica con personale altamente specializzato

Ogni industria e ogni impianto produttivo hanno esigenze diverse, che non possono essere completamente soddisfatte da sistemi standard, preconfezionati e poco flessibili.

SINCOSALD, sulla base delle richieste delle aziende, progetta soluzioni ad hoc per il controllo degli impianti produttivi. Una soluzione su misura per risultati migliori.

AUTOMATION / ROBOTIC

SINCOSALD Srl boasts an automation department that can give solutions to any need in the field of welding with an experience of over 30 years in the automation and robotics.

Industry expertise:

Analysis and design of automation platforms for the control of plant tailored to customer needs

Analysis and realization of electrical panels for automation

Development of automation software for industrial systems based on modular controllers PLC/CNC

Study and realization of supervisory control architectures based on modern technologies

Qualified division of technical support with highly specialized technicians

Every industry and every manufacturing facility have different requirements, which cannot be fully met by standard systems, pre and inflexible. SINCOSALD, based on the demands of the companies, designing solutions for control of the production plants. A customized solution for better results.
